## SUMMARY

Front-end web developer with 3+ years of experience creating websites and apps for personal and professional use. Proficient in HTML, CSS, and Javascript, along with various frameworks that allow for responsive, modern designs. Coding is my passion, and I value the challenges it provides.

## EXPERIENCE

- Present ● **Freelance Web Developer**
  - Developer**
  - Created and maintained fully reactive websites for individuals and local stores
  - Utilized the Bootstrap framework to optimize page layouts for mobile displays
  - Provided custom logos, photo edits, and content modification using Photoshop
  - Designed projects using CSS, HTML, Javascript, jQuery, and other utilities
  - Integrated databases and external content fetching through backend API calls
- January 2022 — ● **TekCitadel LLC**
  - Front-end Internship**
  - Assisted with HTML website design, email communications, and error handling
  - Collaborated with experienced team members to deliver quality applications
  - Developed knowledge of version control through the use of Git commands
  - Performed manual testing of websites and apps for cross-browser compatibility
  - Practiced SCRUM methodologies to meet goals and maximize team efficiency
- May 2016 — ● **JVM Design**
  - Project Manager**
  - Consulted with clients to plan and codify project designs, budgeting, and billing
  - Acted as team leader by delegating responsibilities, developing employee scheduling, and facilitating group productivity to satisfy approaching deadlines
  - Referenced city ordinances to meet building codes, and acquire proper permits
  - Built a website to accept residency applications, and provide contact details
